Product description

RACENT Tank US M5A1 1:16 RTR 108-3B2 - Green

The RTR version of the model includes all the necessary accessories for driving. You must purchase 4 AA batteries to power the transmitter yourself.

Description:
[Highly Simulated M5A1 Stuart RC Tank] The turret servo of the model toy can rotate 360 degrees with electric slip ring. The gun barrel servo can raise and lower 30 degrees. In addition, it will retract the barrel and flash when it fires. The machine gun also glows when it fires.
[RC Model with A Lot of Detail] The remote control tank has the same suspension system as the M5A1 Stuart. All load-bearing wheels are independently suspended, which allows it to go through complex terrain easily. It also can make effects and engine sounds and has controllable lights. What's more, you can control it to release smoke while moving. Note: Smoke fluid needs to be purchased by yourself.
[Special Design of Remote Control] The remote control references the design of the console, which gives military enthusiasts a more realistic sense of operation. Besides, most of the buttons are made of metal. The remote control can record the setting data of 3 vehicles.
[Fast RC Army Tank] Depending on the Dual-flow high power gearboxes, this rc military vehicle can not only move at simulated speeds, but also at the speed of 6-8km/h. The top speed of this tank toy is faster than most of the similar products in the market.
[The Perfect Toy Tank for Military Enthusiasts] Package includes 1xTank, 1xRemote Controller, 1xBattery(7.4V 1200mAH), 1xCharging Cable and Self-installed Accessories. This RC military tank is the ideal gift for military enthusiasts. Note: Smoke fluid needs to be purchased by yourself.

Max Speed (mph)	up to 7km/h
Power	7.4V 1200mAh Li-lon
Charger	Cable USB
Radio	2.4GHz FHSS pistol radio system
For Age Over	8 years
Experience Level	Beginners
Where To Play	outside and inside
