Product description

Volantex RC F22 Raptor with Xpilot Stabilizer System One Key Aerobatic Perfect for Beginners 761-7 RTF

The aircraft in RTF version, the model contains all components for the flight, such as the engine, esc, servos, battery, charger, transmitter and receiver. We have a range to buy 4xAA batteries to power the transmitter.

VOLANTEXRC rc airplane/jet F-22 Raptor easy flying designed for beginners, with 6-Axis Gyro system. 3-level flight control assists provides easy flying control, not mentioning to do aerobatic flying by simply pressing one button. EASY TO CONTROL RC Airplane With ONE KEY FUNCTION: Simply press one button and pull the stick to control the F22 Raptor easily to do aerobatic flying. Xpilot stabilization system ultra stable self stabilization of gyro system.
BEGINNERS' FIRST RC AIRPLANE TRAINER: 3-level flight control assists(Beginner level with full assist/ Intermediate with partial assist/ Expert for manual control) help beginners learn to fly step by step.
GREAT RC Airplane FOR OUTDOOR FLYING: 2.4Ghz Radio Control distance of 656 ft, the strong anti-interference capability allows to hold a small flight club party between you and your friends.
MORE LONGER FLYING, MORE FUN WITH YOU: The gear box system provides more thrust and power to increase speed, and more efficient to save battery's power, allowing the RC Plane to fly a long time about 20 minutes.
TWO VERSION OPTIONAL: The RTF version includes everything needed to get the model started, only require 4pcs AA batteries for transmitter. The PNP version only includes an airplane model, no transmitter no battery no charger, just for replacement(for someone who lost his/her original F22 RC Plane but still keep the transmitter, battery and charger).

Great RC Airplane: Easy to Control Xpilot gyro stabilizer system provides superb stable flying even controlled by rookie pilot.

The self-stabilization of gyro system will help flying in any weather condition even in windy days. 3-level flight control assists(Beginner level with full assist/ Intermediate with partial assist/ Expert for manual control) help beginners learn to fly radio control airplane step by step.

XPILOT Stabilization System is a trustable flight control assistant that helps beginner get started to enjoy flying easily.
- Easily learn to fly with 3 levels- strong assist rc plane for beginner, soft assist for advanced, no assist for expert.
- Stabilize your plane in windy conditions.
CAUTION: This is a sophisticated hobby product and NOT a toy. It must be operated with cautions. Please fully charge the battery every 3 months if you don't use this plane. Please read all through the manual completely before play and follow the instructions carefully.Actual product may vary slightly from photos shown.

Technical specification based on the different versions:		KIT	PNP	RTF
Length	13.380000in			
Wingspan / Width	10.240000in			
Flying/Running Weight	0.13lbs			
Prop Size	2.5"			
Motor	brushed 180A			
Speed Control	Combine Rx.			
Servo	-			
Recommended Battery	3.7V/360mAh			
Radio:	2.4Ghz 4-Channels			
Charger	USB Cable			
Flaps	No			
For Age Over	14 yearst			
Experience Level	Beginners			
Where To Play	Outdoor			
Is Assembly Required	No
