Product description

Volantex RC Mini Trainstar 400mm 6-Axis Gyro Airplane 761-1 RTF

Product Description

Mini Trainstar is Ready To Fly (RTF) Complete Full 3 Channel (Elevator, Rudder, Throttle) Airplane; Fully Factory Assemble. The plane operates on 3 channels: one channel operates the elevator, a second channel operates the rudder and a third channel operates the throttle control with a variable speed control knob. Perfect training plane for junior players due to 6-axis gyro at Beginner Mode. Self-stabilization of gyro system help flying in windy days. 3-mode Digital proportional standardized radio control system: Beginner, Midd, Expert. 2.4Ghz spread spectrum technology: better anti-interference ability, faster reaction speed, least power consumption. 2.4Ghz technology allow more than 20 aircrafts to fly at the same time

Included in the kit transmitter cooperates with the receiver model in the 2.4 GHz band, so we are sure that the flight did not come to any disturbance. Mini Trainstar was entirely made of very hard, resistant to falls and impact of EPO foam. Low weight and robust design make the model behaves well during the flight and forgives mistakes novice modelers.

Technical specification based on the different versions:		KIT	PNP	RTF
Wingspan:	400mm (15.7 in)			
Overall Length:	310mm (12.2 in)			
Flying Weight(without battery):	20g			
Prop Size:	4x Spare Propeller			
Motor Size:	Coreless 8mm			
Gyro	6-Axis Gyro			
Servo	2 x 1.3-grm			
Recommended Battery:	3.7V 180mAh Li-Po			
Charger:	USB LiPo balancing charger			
Radio:	2.4Ghz 3-Channels			
Ailerons:	No			
Flaps:	No			
Minimum Age Recommendation:	14 years			
Experience Level:	Beginner ~ Expert			
Recommended Environment:	Outdoor			
Assembly Time:	Less than half hour			
Is Assembly Required:	Yes
