### Product description

## VOLANTEXRC P47 Thunderbolt 4ch Remote Control Airplane for Beginners Xpilot Gyro Stabilizer 761-16 RTF

The RTF version of the plane includes all the elements necessary for flight, such as an engine, controller, servos, battery, charger, transmitter and receiver. You will need to purchase 4 AA sticks to power the transmitter.

### KEY FEATURES

**EASY TO FLY RC PLANE:** Ultra stable rc plane equipped with Xpilot gyro stabilizer and powerful motor-gear system, pilots can easily do aerobatic and fly it in breeze. It's a great rc airplane for beginners, adults.

**RC PLANE FOR BEGINNERS AND EXPERTS:** 3 level flight control assist (Beginner level with full assist/ Intermediate with partial assist/ Expert for manual control) help beginners learn to fly step by step. Expert pilots can also have your show time with this rc plane immediately.

**RC PLANE WITH ADVANCED FEATURES:** Simply press the button, hold on the throttle and throw it out, it will automatically take off and hover in the sky to wait for your command. During the flight, also simply press a button, then you can enjoy aerobatic fun with it.

**RC AIRPLANE FOR OUTDOOR ADVENTURE:** 2.4Ghz remote control system with control range of 656 ft, the strong anti-interference ability allows pilots hold a small flight club party for fun. Just come and have fun with this rc airplane.

**THRUST WWII RC PLANE:** The gear box system makes the rc plane be more thrusting and powerful, efficient to increase speed and flight time, pilots can constantly fly it for about 20 minute.

**FULLY ASSEMBLED READY TO FLY:** Comes with everything needed to get the model started, only require the batteries for transmitter. It is fully assembly for easily getting the plane take off within 1 minutes out of box. Portable package to go with you everywhere.

VOLANTEXRC 4-Channel RC Warbird RC Airplane for beginner P47 Thunderbolt RTF with Xpilot Stabilization System, One Key Aerobatics and Newly Design Propeller Saver The P47 Thunderbolt is a small size rc airplane for beginner but with excellent performance. Due to the integrated Xpilot gyro stabilizer system, with over-grade powerful motor system, the plane flies stably, react nimbly and able to do aerobatics even in little windy environment. "Lighter is easier". As known a lighter rc airplane for beginner is easier to fly. The durable but light EPP material to provide a superb flight control feeling, making it EASY for beginner pilots to get started, even without much experience of practices.
