Product description

Volantex RC Vector 30 motorboat with self-reversing system up to 50km/h 795-8G RTR - brushed motor / Green

The RTR version of the boat includes all the necessary accessories for sailing. You'll need to purchase four AA batteries to power the transmitter.

Description :
The 30cm Volantex RC Vector 30 motorboat delivers excellent performance. Thanks to its well-designed structure with water ribs and trim tabs, this little boat stays stable in a pool, lake, or even river. Thanks to the water-cooling system, you don't have to worry about the motor or ESC overheating, even when the boat reaches a top speed of 50+ km/h.
The Vector 30 motorboat is fully operational and includes a 2-channel radio using 2.4 GHz technology. It's also been upgraded with a reverse function, meaning that whenever you're having trouble with a blockage, simply reverse it back to the track and you'll be back on track!

Length	30cm
Flying/Running Weight	200g
Max Speed (mph)	up to 50km/h
Motor	180A powerful water cooled

	brushed motor
Servo	9-gram Servo * 1pcs
Power	7.4V 380mAh Li-ion Battery
Charger	2S LiPo charger
Radio	2.4GHz FHSS pistol radio system
For Age Over	14 years
Experience Level	Beginners
Where To Play	Pool
Is Assembly Required	No
