Product description

VolantexRC Corsair F4U 500mm gyro Xpilot Brushless with update motor 768-3 RTF

The plane is in the RTF version, the model contains all the elements necessary for flight such as the engine, controller, servos, battery, charger, transmitter and receiver. You must buy 4 AA batteries to power the transmitter yourself.

Longer Flying, More Fun The gear box system boosts thrust and power, increasing speed and saving battery life. You can enjoy flying for up to 20 minutes on a single charge. Moreover, the upgraded motor contributes to better energy efficiency and longer flight time.
Great Airplane for Outdoor Adventure With a 2.4Ghz radio control distance of 656 ft and strong anti-interference capabilities, you can host a mini-flight club with your friends and have a great time flying together. The Corsair F4U's unique design and powerful performance make it stand out during outdoor flights.
Fully Assembled and Ready to Fly This plane comes fully assembled and ready to take off right out of the box. All you need are batteries for the transmitter. The portable package makes it easy to take the plane anywhere. And with its larger size and more realistic design, it's even more eye-catching and impressive.
VOLANTEXRC RC Plane - Corsia F4U “Unbeatable” The Corsair F4U “Unbeatable” is a meticulously designed and high-performing airplane. Thanks to the integrated XPilot gyro stabilizer and the newly upgraded, larger motor system, it flies smoothly, reacts quickly, and can perform aerobatics even in light wind conditions. The product's design is more realistic, with

an increased size that makes it look more like the real Corsair F4U. What's more, the rich details on the plane, from the exterior paint job to the intricate components, make it a true collector's item and a joy to fly for enthusiasts.
