Product description

VolantexRC Mini Mustang P51D 4-Ch Beginner Airplane with Xpilot Stabilizer / One-key Aerobatic 761-5 RTF

The aircraft in RTF version, the model contains all components for the flight, such as the engine, esc, servos, battery, charger, transmitter and receiver. We have a range to buy 4xAA batteries to power the transmitter.

The VolantexRC P51 Mustang with gyro is one of the best RC airplane for beginner kids and adult. It come with Aileron, great sport performance, with one key aerobatic, 6-axis gyro, one key return, durable EPP material, propeller saver.
□Easy to control□4 channel control with Aileron, great sport performance, easy to do aerobatic. 6-axis gyro stabilizer provides superb stable flying even controlled by rookie pilot. Great rc airplane for beginner and experts.
□One-key Aerobatic□This function includes “flip” and “roll”, means that the rc airplane for beginner can do aerobatic automatically in two direction if you turn it into beginner mode and use this function. Everyone could enjoy the aerobatic flight even if he/she is a new pilots.
□Durable Material□EPP composite material, high flexibility, excellent recovery, not easy to break.
□Suitable for multiple locations□Apply to indoor and outdoor flight, longer remote control distance and 60g flying weight.
□Fully Assembly□True ready-to-fly (RTF version) package allows the plane to take off within 2 minutes after you open the box.

VOLANTEXRC 4-Channel RC Trainer RC Airplane for beginner Mustang P51 RTF with Xpilot Stabilization System, One Key Aerobatics and One-Key U-Turn
The Mustang is a small size rc airplane for beginner but with excellent performance. Due to the integrated Xpilot gyro stabilizer system, with over-grade powerful motor system, the plane flies stably, react nimbly and able to do aerobatics even

in little windy environment.
“Lighter is easier”. As known a lighter rc airplane for beginner is easier to fly. The durable but light EPP material to provide a superb flight control feeling, making it EASY for beginner pilots to get started, even without much experience of practices.

Great Remote Control Airplane: Easy to Control Xpilot gyro stabilizer system provides superb stable flying even controlled by rookie pilot. The self-stabilization of gyro system will help flying in any weather condition even in windy days. 3-level flight control assists(Beginner level with full assist/ Intermediate with partial assist/ Expert for manual control) help beginners learn to fly radio control airplane step by step. XPILOT Stabilization System is a trustable flight control assistant that helps beginner get started to enjoy flying easily.
- Easily learn to fly with 3 levels- strong assist for beginner, soft assist for advanced, no assist for expert.
- Stabilize your plane in windy conditions.
