Product description

VolantexRC Spitfire 500mm with Xpilot 768-5 RTF gyroscope - brushless motor

This RTF model includes all the necessary flight components, including a motor, ESC, servos, battery, charger, transmitter, and receiver. Four AA batteries are required to power the transmitter.

KEY FEATURES

- Built-in gyroscope
- 3-level flight control assistant
- Easy acrobatics with the "One Key" function
- Propeller protection system
- 4-channel model version

The Volantex RC Spitfire 500mm is a small aircraft with excellent performance. Thanks to the integrated Xpilot gyro stabilizer system and a powerful brushless motor, the aircraft flies stably, agilely, and capable of performing aerobatics. Equipped with an aerobatic function, simply press a button and pull the stick for easy control and acrobatics. A 3-level flight assistant (Beginner with full assistance, Intermediate with partial assistance, and Expert with manual control) helps beginners learn to fly step by step. The remote controller has a range of approximately 300m and a flight time of up to 10 minutes on a single charge.
